

## ELLA DOWNLIGHT

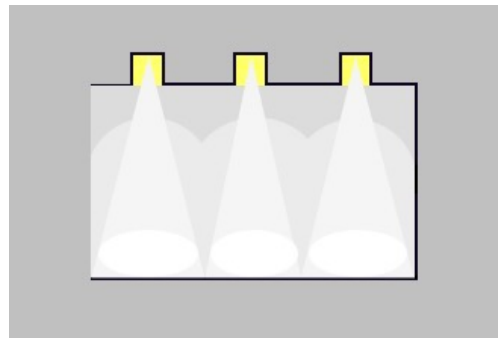

Professionals set the scene effectively by a homogene basic illumination in combination with brighter spots. The basic illumination takes care for a peaceful, agreeing familiarity and creates a relaxed ambience. ELLA provides this mood by its unique light distribution. A well being, peaceful sense of security is offered without irritating dark-bright-dark-bright effects. Out of this very convenient basic illumination the attention is directed by spots free and easy but determined to the places where life is flashing towards tables or vitrines in a shop.

### Light distribution

#### conventional downlight

- light cone
- light arcades on the wall
- light spots on the floor

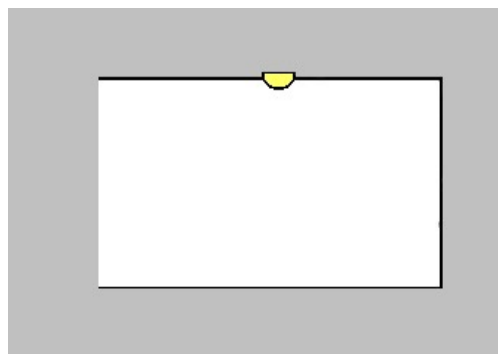

dark- bright dark effect  
uncomfortable illumination  
a grey ceiling

#### ELLA light distribution

- no dark-bright effect
- entire room high visible
- bright basic illumination

homogene illumination  
and a relaxed  
feel-good ambience

ELLA is available as recessed or surface mounted luminaire in a single or as a lightband version. The emergency light function is already prepared. The solid aluminium housing radiates only a small warmth by a low installation depth of 25 mm. For gypsum board fire protection ceiling F 90 EI 90 a prefabricated element is also available. Led lamps or fluorescent lamps with a life span of about 45'000 h reduce the maintenance costs.

Please specify your needs to us and we will be happy to answer your questions.
